THE POLE OF DEATH. TO THE MEMORY OF SIDNEY LANGER How solemnly on mournful eyes The mystic warning rose!
But o'er the Singer's forehead lies
A twilight of repose. The twilight deepens into night-That night of Arctic breath,
The rigor of whose awful blight
We recognize as Death.

Yet, since beyond the Polar ice May shine bright baths of balm Past its grim barrier's last device A crystal-hearted Calm. Thus ice-bound Death, that guards so well His far-off secret goal, May clasp a Peace ineffable For some who reach his Pole My Poet, it is thus with thee,

Beyond this twilight gray,

This frozen blight, this somber sea—
Ah! hast thou found the Day?

And Mr. Berkey and his friends will, if they are wise, hasten to forestall the otherwise inevitable action of the committee, for by so doing he will perhaps avoid still further misfortunes. In any event we are compelled to say that the Republican party of Sacramento county cannot and will not accept Mr. Berkey as its candidate under the newly - discovered state of facts. So far as is now known he is a defaulter, and under circumstances which may make it very difficult for him to escape indictment and impossible to escape civil proceedings. Now there have unfortunately been too many official delinquencies in this county. We do not want to recapitulate them, but every taxpayer knows that their number is discreditably great. There must be an end to this kind of thing, and it would be mere midsummer madness for the Republican party to think of supporting for Sheriff a candidate who is shown to have defaulted in a position of trust, as Mr. he should have thought it possible to accept custedy. the nomination for Sheriff with this hanging over him. Imprisonment for Life. SHASTA, August 21st. - Indian Pike to-day pleaded guilty of murder, and the Court after taking evidence, sentenced him to the State Prison for life. This is in the same case as that in which Robert Pitt was convicted Saturday evening, with the same penalty. The circumstances are these: James Hugh Hays, a sort of worthless character of a morose disposition, preferring to live with Indians rather than his own race, and going about armed with an ax, had made threats against Robert Pitt, a trader and miner, who against Robert Pitt, a trader and miner, who employed Indian Pike, and Pitt, apprehending danger, by coaxing and threats, induced Pike to go and kill him. On the night of May 1st, in the midst of a terrible rain storm, Pike went to old Hays' hut and shot him with Pitt's rifle through the head. INDIA RUBBER PLANTS. -W. T. Thistle ton Dyer recently brought before the London Linnean Society an interesting communication on the caoutchouc-yielding Apocynacae of Mslaya and Tropical Africa. After giving a general sketch of the structural and physiological conditions of the occurrence of caoutchouc in plants, the author pointed out that the plants which appeared to yield it in commercial quan tity in three widely separated regions all belonged to one tribe of Apocynacee, the Carisse. In the East Indies the "gutta singgarip" of the Malay Peninsula, the "gutta 200200" of Borneo, was the produce of a new species of Willughbeia, W. Burbidgei. Many other species of this and allied genera also seemed to produce caoutchouc in quantity worth collection.

In Central Africa Landolphia, which was closely allied to Willughbeia, but differed in possessing terminal instead of axillary lowers, was the most important source On the East Coast caoutchouc was vielded by L. owaciensis and L florida, the latter a very ornamental plant. As the rubber exuded from the cut stems, it was plastered by the collectors on the breast and arms, and the thick layer, when peeled off and cut up into squares, was called "thimble rubber." On the West Coast the most imhorse, an end-spring buggy, and one single-collar harness, will be sold at public auction in front of 916 Fifth street, at 10 A. M. today. The property is pledged, and will be sold for cash to pay an indebtedness.

Tubber. On the west Coast the most important species was L. Kirkii, the rubber of which could be wound off into balls or small rolls from the cut stems, like silk from a coceon; this species was called "Matere." L. florida also occurred, and No abatement in the interest taken in Hale's final clearance sale.

In horida also occurred, and this was called "m'bunga;" its rubber was worked up into balls, but was inferior in value. The rubber of L. Petersiana was of

The Reno (Nev.) Journal says that a new dam or bulkhead will shortly be constructed above the large dam on the Truckee, for the purpose of concentrating the entire flow of the river into one channel. Formerly the Truckee river flowed through but one channel, but about a year or two ago a flume was put in on the southward bank, which after being used was neglected, and finally cut for itself the south channel in the river just above the dam. The new bulkhead will return the truant water to the main bed and increase the body necessary for the various ditches. The investigation of the death of Mrs. Annie Masterson, reported beaten to death by her husband, shows that the woman died of chronic alcoholism. The Clyde, which left for Panama Saturday morning, carried three Chinese passengers and forty-one Chinamen in her crew. They were all provided with cer-

tificates. The affidavit of Carrie Bradley, charging Chief Lappeus, of Portland, with being bribed, is not believed here. It was on a telegram from Lappeus that the woman was

arrested here. The habeas corpus case of Ah Sing, sailor on the steamer City of Sydney, is on trial before the Circuit Court. It is claimed that he was in the country before the treaty went into effect, and that he had a right to return to this country on the same steamer.

Let no trusting American citizen console himself with the reflection that war in Egypt does not concern him. If he uses mucilage-as most likely he does-the war does concern him very nearly. The chief supply of gum arabic, which lies at the foundation of mucilage, is shipped from Alexandria, and the closing of that port will cut it off. There is a deep significance, therefore, as well as sound sense, in expressing a hope that the English Admiral and his home backers will "screw their courage to the sticking-place." Mucilaginously speaking, Alexandria is just now the sticking-place. - [Detroit Free Press.

Lord Beaconsfield's poetry, which was ever rather flat and sentimental, has won the honors of royal approval. Two of his poems, "The Blue-Eyed Maiden" and "The Green Cavalier," have lately been set to music by the accomplished young Princess Beatrice, who, if she continues in her present habits of industry, will shortly have a pretty income of her own.
